

Iowa County Fair **GARD SWINE PAVILION REMODEL PROJECT**

We're upgrading the Gard Swine Pavilion!

Replace Front Gates

The original 75 front gates have gotten increasingly difficult to open and close. The gate rods that currently fasten the front gates are bending and gates have started to shift. Additionally, the post at the front of the pens are fastened to wooden planks that have begun to rot and degrade.

Pour Concrete in Aisles

We plan to remove the wooden planks and replace them with a continuous concrete surface. The new concrete will extend from the existing slab in one pen, across the alley, to the slab of the pen opposite it. This upgrade will help eliminate our recurring rodent problem, prevent erosion, and significantly reduce dust.

CURRENT

UPGRADE

See reverse side for more information on how you can support the project!

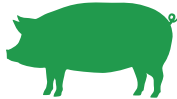

Iowa County Fair **GARD SWINE PAVILION REMODEL PROJECT**

Project Cost

ARCHED GALVANIZED GATING: \$19,936.00
CONCRETE: \$3,375.00
