Iowa County Fair Severe Weather Emergency Plan

Steps that will be taken in the event of a Severe Weather Emergency

1. Members of the Iowa County Fair Board or employees will be in the fair office and have a weather radio that is monitored at all times. They will also be monitoring the grounds on a UTV.
2. If the National Weather Service announces a **Severe Weather Watch or Warning**, the Iowa County Fair Board will be in contact with the Iowa County Sheriff's Office and Mineral Point Fire Chief. Pertinent information will be announced to fair attendees over the fairgrounds PA system.

If the National Weather Service advises our location to **take cover**, the Iowa County Fair Board will give further direction using the fairgrounds PA system.

Evacuation Process

In case of an evacuation, both the lower and upper gates will be used for vehicle traffic. All vehicles near the upper gate by the main office, will exit that gate and be required to turn right. If using the lower gate near the Schimming Building all vehicles will be required to turn left. The middle gate will be for foot traffic or individuals that are without transportation. Buses will be located in the Cummins parking lot to take individuals to a safe area.

Take Cover on the Grounds

The severe weather shelters will be the underpass or tunnel as well as the bathrooms under the grandstand. If you are closer to the main entrance you will take cover inside the main building away from windows and doors. Plan to stay inside until weather forecasts indicate it is safe to leave.

In Case of Barn or Structural Fire

Call 911 - Report the location of the fire. Notify the fair office by calling 608-987- 3490

It is very important for everyone to safely exit the barns immediately. Clear the outside area as well to allow the firefighters access to do their job. First priority is protecting human lives, so individuals are strongly discouraged to attempt to save any livestock or belongings in the case of a barn fire. Keep fire lanes and all entrances to the barns clear of vehicles so the fire department can get to the building with ease.

In Case of a Medical Emergency

Call 911- Report the emergency and your location on the grounds. Give as many details as you can (age of patient, injury, severity) Notify fair office by calling 608-987-3490

In addition to being on the grounds, There will be a person at the front gate on an ATV that will lead EMT's to the individual in need of care. It is important to keep the areas clear of onlookers to allow space for the EMT's. There are First Aid Kits located throughout the Fairgrounds.

Swine

Note: These regulations apply to all swine, including pet pigs and racing pigs.

Note: *Herd of origin means the herd in which the pigs currently reside, likely the exhibitor's herd. When pigs are purchased from a herd, the herd from which they originate is the herd of origin for the seller. Once the purchased pigs are added into the buyer's herd (even if the buyer's herd only consists of one or just a few animals), the buyer's herd becomes the new herd of origin and that herd must meet testing requirements to move pigs again.*

Swine FROM WITHIN WISCONSIN (Ref. s. ATPC 10.32(2) and 10.87, Wis. Admin. Code) need a Wisconsin intrastate certificate of veterinary inspection (CVI or health certificate)^a:

- Stating that the entire herd of origin on the farm was inspected within 30 days before the show and no apparent disease was present at the time of inspection^d.
- **Non-terminal Exhibitions:** All swine must have a PRRS (Porcine Reproductive and Respiratory Syndrome) and PEDv (Porcine Epidemic Diarrhea virus) test of the herd of origin within 90 days of the end of the exhibition^e. Include test date, type, and results on the CVI.
- **Terminal Exhibitions:** No testing requirements.^e

Note: *Terminal Exhibitions are those at which all the swine go directly from the fair/show to the slaughtering establishment OR to a slaughter only market sale. Shows or exhibitions are either terminal or non-terminal. If all of the pigs at the event are not going directly to slaughter (including through a slaughter only market sale), it is considered a non-terminal exhibition. For non-terminal exhibitions, all the pigs at the show or exhibition will need to be tested prior to the event even if individual animals will go directly to slaughter. If going to a slaughter only market sale, contact the Division of Animal Health fair inspector for required information to collect.*

Note: *If the fair intends to use a load-out facility, contact the Division of Animal Health in advance to discuss requirements that must be met.*

Swine FROM OUTSIDE WISCONSIN (Ref. s. ATPC 10.30 and 10.87, Wis. Admin. Code) need a certificate of veterinary inspection (CVI or health certificate)^a that includes the following:

- The negative results of the PRRS test^e from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- The negative results of the PEDv test^e from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- A statement that the veterinarian has inspected the entire herd of origin within the past 30 days and that no clinical signs of PRRS and PEDv or any other apparent disease was present at the time of inspection.^d
- Official individual identification (ID)^b

Acceptable methods of ID for swine are^b:

- USDA silver ear tag
- USDA 840 ear tag, either visual or RFID
- Breed association tattoo if the pig is a purebred and the tattoo is registered
- An ear tag with the premises identification number and a unique identifier
- Ear notch if the pig is a purebred and the notch is registered

Note: Microchips are not accepted as official ID for any swine including pet pigs.

Requirements are subject to change as conditions warrant. For current information and for PRRS and PEDv testing options, check https://datcp.wi.gov/Pages/Programs_Services/SwineMovement.aspx.

Sheep and goats

Note: These rules do not apply to non-domestic sheep and goats. See Exotic Ruminants below.

Sheep and goats FROM WITHIN WISCONSIN need:

- If sexually intact, need official individual identification (ID)^b at any age.
- If not sexually intact, need official individual ID^b if they are 12 months or older.
- See below for Official ID options.
- Sheep and goats that go to a slaughter establishment after the fair should have an owner hauler statement to move from the fair to the slaughter establishment.

Sheep and goats FROM OUTSIDE WISCONSIN (Ref. s.ATCP 10.69, 10.76, Wis. Admin. Code) need:

- Certificate of veterinary inspection (CVI or health certificate)^a and official individual ID^b for all animals.
- See below for Official ID options.
- See below for additional requirements for goats from Michigan's Tuberculosis Modified Accredited Zone.
- Sheep and goats that go to a slaughter establishment after the fair should have an owner hauler statement to move from the fair to the slaughter establishment.

Official Identification^b includes:

- Scrapie eartags (including tags on neckstraps for animals with absent/injured ears or with official tattoos – see DATCP Website*)

- Legible scrapie tattoos (see DATCP Website* and NOTE below)
- Approved microchips (Electronic Implantable Identification/EID) – There are many requirements that need to be met to use microchips including a requirement for accompanying tattoos. See DATCP Website* and NOTE below.
- **NOTE:** All sheep and goats *that go through a market or to slaughter* and require Official Identification **must be eartagged** with Official ID. Official ID in the form of a tattoo or Electronic Implantable Identification (EID) is no longer sufficient when moving through a market or going to slaughter.
- **NOTE:** If a Wisconsin origin animal is neutered, less than 12 months of age, and moving through a market after the fair, the market may require Official ID in the form of an ear tag.
- *For more information on official identification and for owner hauler statements see DATCP Website at https://datcp.wi.gov/Pages/Programs_Services/OfficialID.aspx

Goats from Michigan's Tuberculosis (TB) Modified Accredited Zone –Alcona, Alpena, Montmorency, Oscoda counties- also need:
